

With the support

Lending a Helping Hand to retain and sustain the deprived families of Irular Community:

*Villages : Ponnipadi, Katrayangunta, Jakeermangalam and Pullingunta
Block : Thiruvananthapuram*

We, at Grameena Navya Kshetra Foundation, being part of the community and supporting the community gives us a valuable opportunity to walk into different challenges at society but just as colourful and most importantly, in need.

Villages with such earthy names go deep interior with rough passage, all of them live in thatched roof huts, owing nothing have got used to live with nature to a bare minimum. However it is increasingly becoming difficult, most of us live in lands that don't belong to us. Many of those families are daily wagers such as Brick Kiln Workers, Lumberjacks, Rice Mill Workers and in construction projects close to them. Some have been rescued from bonded labour which is another world.

Dry Ration Kits of 16 Kgs each kit among 144 Irular families and made the whole process dignified and easy to the most vulnerable families of Irular community.

We hope to keep creating such meaningful partnerships to get communities involved and interlinked. Our sincere and eternal gratitude to our donors who dedicate their time and put their faith in us.

Collaboration of efforts in serving the needy enables the path to reach the more.
